## COUNTRY 2325 ALFALFA GRASS

Persistent alfalfa mixture for two - three year cutting, for all areas where alfalfa is well suited

### Mixture composition

80 % Medicago sativa  
15 % Festuca pratensis  
5 % Phleum pratense

### Main characteristics

- High crude protein content and stability of yield in dry areas
- Meadow fescue is very well suited to combine with alfalfa, it improves protein/energy ratio of the growing grass
- These characteristics and good resistances to alfalfa mould (verticillium) of the used alfalfa varieties are responsible for a long use
- The name of this COUNTRY-mixture in Germany is COUNTRY Feldgras 2056 Luzernegras
