PLANET

One of the best in yield

PLANET is one of the best alfalfa varieties. It has a good resistance to verticillium and fusarium as well as high persistence and stable yields. Another advantage of PLANET is its high green matter and protein yield in all cuts. PLANET can be used for three continuous years and is especially useful on sites susceptible to Verticillium.

BSA-classification 2005 (Germany) 9=best

Winter hardiness	5
Stability	6
Content of crude protein	6
Total dry matter yield	6
Dry matter yield first cut	6
Dry matter yield following cuts	6

Classification 2005 (Austria) 1=best

Stability	4
Winter hardiness	4
Total dry matter yield	100
Yield of crude protein	105

Planet | Forage

Medicago sativa
Diploid
Listed in AT, BY, CH, CZ, DE,
