TAIFUN

Best in all

TAIFUN is a variety with excellent characteristics. The red clover reaches high total dry matter yields and exceeds all listed varieties of the German portfolio in the yield in the first cut. TAIFUN also confirms these results in the categories total dry matter yield in the second year of use as a main crop. The good winter hardiness and the low to medium susceptibility to stem rot of clover are also worth mentioning. In total, TAIFUN sets new benchmarks in the red clover portfolio.
